Series: The 100th Time's the Charm: She Was Executed 99 Times, So How Did She Unlock "Super Love" Mode?! (Manga)

Territory: World English

**Summary:** After enduring 99 executions for a crime she didn't commit, Alphina claimed victory in her 100th loop by finally striking back at the evil Saint who set her up. Presumed dead, our heroine leaves the empire behind to start a quiet new life in a forest. However, it isn't long before her former fiancé, the coldhearted Prince Lionett, shows up on her doorstep a bloody mess. From this encounter, Alphina learns that the prince still loves her dearly—and that the Saint has escaped from prison ...

**Summary:** A student rebellion has broken out! Discontent with a new tax on orichalcum quickly builds in the School District, rising to a fever pitch when all contact with Orario is suddenly cut off. But the festival-loving gods aren't about to pass up a chance like this. It's time for a tournament to decide whether Orario or the School District will come out on top. Unsure of which side to join, Bell asks a certain knight for a favor...

**Summary:** Ryo is delighted to be reincarnated into the fantastical world of Phi, where he thinks he'll get to live a quiet life learning to use his newfound water magic. Going with the flow here, however, means something very different. Ryo is immediately pitted against the wild lands he winds up in and the slew of deadly monsters that call the remote subcontinent home. You'd think he'd forget about taking it easy when he's stuck fighting for his life, but lucky for Ryo, he's naturally optimistic,...

**Summary:** When Ai's elder sister Kozue shows up and demands that she return to live with her mother, Ai feels she has no choice but to run. Ai just wants to be free, but as her family troubles continue, her world only becomes more suffocating. Unable to ignore her pain, Yuzuru resolves to help her find the right decision—one she won't regret. He approaches Kaoru, too, but is she willing to put aside her own feelings to assist her romantic rival?
